

## NAFDAC CEILING LIST

1. Ceiling list was published November 15, 2021. Ceiling aims to prevent the importation of pharmaceutical products that domestic manufacturers have capacity to produce locally.
2. As a result, this Ceiling is now necessary to boost local production, improve access to medications, increase availability and affordability of products and ultimately strengthen the economy of the nation.
3. The ceiling list currently has thirty-six (36) products which can only be registered as locally manufactured Pharmaceuticals.
