NATIONAL AGENCY FOR FOOD & DRUG ADMINISTRATION AND CONTROL (NAFDAC)

Regulatory Directive on Discontinuation of Registration of some Fixed-Dose Combination (FDC) Drugs

1.0 Purpose:

This regulatory directive aims to discontinue the registration of some Fixed-Dose Combination (FDC) drugs due to the risks associated with product safety. The therapeutic justifications for these FDCs have not been established and irrational therapy with accompanying Adverse Drug Reactions (ADR) have been well documented. These FDCs are banned in several countries including India (which is a major source of these medicines) because they were found to pose risks to human health.

2.0 Scope:

This Regulatory Directive applies to locally and imported pharmaceutical Fixed-Dose Combinations (FDCs) in which new, renewal and variation applications are not received anymore.

3.0 Directive Details:

The control or discontinuation is imperative because of the increased risk of liver and kidney damage caused by these Fixed-Dose Combinations. **In view of the foregoing, the Agency will no longer accept applications for new, renewal and variations for the attached list of the locally & imported versions of these medicines.**
