NATIONAL AGENCY FOR FOOD & DRUG ADMINISTRATION AND CONTROL (NAFDAC)

Regulatory Directive on NAFDAC Regulated Products on Ceiling List

1.0 Purpose:

This ceiling list is one of the agency's policies aimed at building the local capacity of manufacturers of NAFDAC-regulated products to contribute to the country's economy, improve access, and increase the availability and affordability of products on the list. These products can only be registered as locally manufactured in Nigeria. Renewal and variation applications for already-registered products on the list will no longer be processed by the Agency.

2.0 Scope:

This Regulatory Directive only applies to items that are on the NAFDAC ceiling list and for which new registration, renewal, and variation applications are no longer accepted.

3.0 Directive Details:

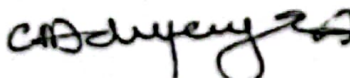

Any product imported up till November 15, 2021, that is under renewal scheme will be under registration as imported product for a maximum of five years, that is, if the product was renewed a day before the publication, as an example, the product will be allowed in the market till November 14, 2026. That example will be the maximum renewal period for any product under the Ceiling.

In view of the foregoing, The Agency will no longer accept, or process applications for new registration, renewal, and variation for products under the ceiling list. Marketing Authorization Holders of the affected products are expected to commence migration to local production immediately.
